

FROM MANAGING MEMBER'S DESK

DLAMBILI CONSULTING

DLAMBILI CONSULTING AND PROJECTS is the culmination of over 15 years business success in the areas of Professionalism, Skill Diligence, Meticulous Planning, Project execution in the Building Construction, Civil and most recently venturing into Mining arenas.

From our humble beginning as a sub-contractor and focus on minor individual clientele to our first Government clientele (Gauteng Department of Education) in 2013. From inception we understood and knew that there is no gain and that you lose more from cutting construction cost and focusing on profits by all means necessary. We understood that kind of cowboy mentality will ultimately cost you more in future and the reputational damage will be irreparable.

We have built upon this momentum serving our clientele taking into account our statement of reference "It's still Construction, We just do it Differently".

Those who know our Motto know and understand that it is not just a saying. We are a true definition of our Motto **"We do it Differently"**.

As our Customer you are treated as our only customer ever, you come first and your concerns matter. Quality Control is in our DNA. SHEQ Systems and procedures are part of our daily work life.

We have evolved with times in order to streamline our Organisation by expanding our offering to be on par with the Clientele we serve, intend to serve and marketplace.

We take our work seriously and pride ourselves with all Projects we work on. We are always on the look out for new technologies and improvement of our existing infrastructure to make it bigger, better and customer friendly. As a Company we strive to be a leader within the Construction space we are active in.

Our clients have previously mentioned that we hold a seamless management structure and our systems make it effortless, professional and enjoyable to work with. (It's not us who says this, it's our Clients).

We're not just active in Construction BUT have created such an enviable reputation in the long term Maintenance (1-5 years projects) space.

DLAMBILI is totally aligned with the interests of YOU as our client / customer. As such we are continually working with our Public sector, Commercial and Mining clients to find better ways of achieving this desired outcome.

As a client and/or potential / future client we would like to say "You matter and You are our backbone". We will strive to take your feedback seriously, give you superior satisfaction, above average Quality, competitive prices and on-time - within budget Project/s.

Our shared aspirations resonate amongst all our teams. Our Management team have experience, skill and commitment to take the stress away from you during the Project so that you focus on other important issues. Furthermore these teams will not only give you peace of mind during project execution stage BUT will ensure delivery and quality due to their experience and commitment.

PAGE 2

DLAMBILI always shares our greater vision, mission and aspirations with our Clients, JV Partners and sub-contractors.

We invite you to come with us on this journey as we move forward and Grow

We know SA is alive with Opportunities and have not even started scratching the surface. Our current milestones are just a stepping stone for great things to come.

I would like to close by offering my heartfelt gratitude towards each and every individual who has played a part and has at some point been part of this beautiful DLAMBILI journey.

Thanks to our dedicated team who work tirelessly and at times sacrifice time with their families and work over the weekends. Thanks to everybody who believes in us and shares our vision for a better Construction tomorrow.
